

DISCOVERY & ASSESMENT

Collect and analyze data to understand the current state of your IT implementation

INSIDE VIEW
G L O B A L

OVERVIEW

- Uncover the full potential of your IT infrastructure through comprehensive diagnostic analysis.
- We identify technological capabilities, system inefficiencies, and strategic opportunities.
- Our expert team provides a detailed roadmap for technological transformation, revealing actionable insights to optimize your IT ecosystem.

The Approach:

Our expert team combines technical forensics with strategic intelligence, creating a holistic view of your IT environment.

We don't just identify issues—we contextualize them within your broader business strategy. Through a combination of technical diagnostics, stakeholder interviews, and advanced analytical tools, we generate a comprehensive report that serves as a roadmap for technological transformation.

It is executed in 5 Sessions, 90 mins. max/session:

- Session 1 - Pain Points and Current State
- Session 2 - Requirements Validation
- Session 3 - Checkpoint - Update
- Session 4 - Finding, Recommendations and Roadmap Walk Through
- Session 5 - Wrap up

Cost \$6,000 plus GST

Deliverables:

- Detailed infrastructure assessment
- Performance optimization recommendations
- Technology gap analysis
- Strategic improvement roadmap
